OUR STORY, OUR HISTORY

NUESTRA HISTORIA

Sometimes a product can remain virtually unchanged for hundreds of years, until a flash of inspiration leads to a revolutionary innovation that changes an industry forever.

THIS IS THE STORY OF ONE SUCH MOMENT.

Drew McGill and Stan Wright owned the Wright & McGill Co.

in Denver, Colorado. Their company was known for tying high-grade fishing flies, a passion of Drew's. On this fateful day in the 1920's, Drew took a break while fly fishing the Colorado River.

While the rainbows and native trout were rising, they were proving exceedingly difficult to hook. Lighting his pipe and reflecting on ways he could improve his technique, Drew's attention was drawn to one large eagle circling lazily overhead. As the bird landed atop a nearby dead cottonwood, Drew noticed how the tips of the bird's talons lightly gripped the weathered, stripped limb.

SUDDENLY DREW HAD AN IDEA: WHAT IF HIS HOOKS WERE SHAPED LIKE AN EAGLE'S TALON?

Using a pair of fishing pliers, he slightly curved the point of his hook, giving it the angle needed to penetrate the leather of his fishing creel. He spent the rest of the day testing different shapes and sizes until an afternoon thunderstorm drove him from the river.

Drew returned to his fly factory in Denver and immediately started refining his design. He envisioned a hook that would exert greater penetrating power in the direct line of pull of the leader. It wasn't long before he created his masterpiece, a hook that would change the way people fished forever, with sweeping curves and sharper points, forged for strength and greater hooking power.

WHAT ELSE COULD DREW AND STAN CALL IT BUT EAGLE CLAW?

Today, the Eagle Claw family of brands is the most recognized in all of fishing. We still make our world-famous hooks in Denver, and are proud to be the only brand made in the United States.

A veces, un producto puede permanecer prácticamente sin cambios durante cientos de años, hasta que un destello de inspiración conduce a una innovación revolucionaria que cambia la industria para siempre.

ESTA ES LA HISTORIA DE UNO DE ESOS MOMENTOS.

Drew McGill y Stan Wright eran propietarios de Wright & McGill Co. en Denver, Colorado. Su compañía era conocida por atar moscas de pesca de alta calidad, una pasión de Drew. En este fatídico día de la década de 1920, Drew se tomó un descanso mientras pescaba con mosca en el río Colorado.

Mientras que la trucha arcoíris estaba en su mejor momento, resultaban extremadamente difíciles de enganchar. Encendiendo su pipa y reflexionando sobre las formas en que podría mejorar su técnica, la atención de Drew se sintió atraída por un gran águila que giraba perezosamente sobre su cabeza.

Cuando el pájaro aterrizó sobre un álamo muerto cercano, Drew se dio cuenta de cómo las puntas de las garras del pájaro se aferraban ligeramente a la erosionada y desnuda rama.

DE REPENTE, DREW TUVO UNA IDEA: ¿Y SI SUS ANZUELOS TENÍAN LA FORMA DE UNA GARRA DE ÁGUILA?

Con su alicate de pesca, curvó ligeramente la punta de su gancho, dándole el ángulo necesario para penetrar en el cuero de su cesta de pesca. Pasó el resto del día probando diferentes formas y tamaños hasta que una tormenta en la tarde lo sacó del río.

Drew regresó a su fábrica de moscas en Denver e inmediatamente comenzó a refinar su diseño. Imaginó un gancho que ejercería un mayor poder de penetración en la línea directa de atracción del líder. No pasó mucho tiempo antes de que naciera su obra maestra, un anzuelo que cambiaría la forma en que las personas pescan para siempre, con curvas de barrido y puntos más nítidos, forjado para la fuerza y un mayor poder de enganche.

¿QUÉ MÁS PODRÍAN LLAMAR DREW Y STAN SINO EAGLE CLAW?

Hoy en día, la familia de marcas Eagle Claw es la más reconocida en la pesca. Todavía hacemos nuestros anzuelos de fama mundial en Denver, y estamos orgullosos de ser la única marca hecha en los Estados Unidos.
